

New Baker's Rack Addition

HOLLYWOOD, FL — Pride Family Brands introduces an addition to its line of woven aluminum storage units with the Baker's Rack/Storage Unit. Designed to enhance storage capabilities within Outdoor Rooms or outdoor kitchens, the Pride Baker's Rack/Storage Unit incorporates fine detailing with étagère or adjustable outdoor shelving from the Castelle line.

"Storage options for the outdoors have been limited to date," says Jamie Lowsky, CEO of Pride Family Brands. "With our line of outdoor storage units, homeowners are no longer stuck with plastic containers, but now can easily coordinate with their seating and dining pieces."

The Baker's Rack is available in multiple finishes and coordinates with numerous collections within the Castelle line. Each piece is constructed for durability and functionality for indoor and outside use. Call ((954) 735-9800, visit www.pridefamilybrands.com or *circle reader service number 104*.
